

# NUTRICIA

5th August 2013,

**NEW ZEALAND PRECAUTIONARY PRODUCT RECALL**  
**KARICARE INFANT FORMULA STAGE 1 (0-6 months) and**  
**KARICARE GOLD+ FOLLOW ON FORMULA STAGE 2 (6-12 months)**  
**\*\*LIMITED BATCHES IN NEW ZEALAND ONLY\*\***

---

Nutricia has instigated a **precautionary** recall in New Zealand based on information from Fonterra

The safety of our consumers is our primary concern. Nutricia's quality and food safety management system includes rigorous testing procedures of our finished products. None of the products tested and sold in New Zealand indicate any contamination. However, given the new information supplied by Fonterra, we have taken the decision to make a **precautionary** recall on specific products

**The products being recalled are:**

- **Karicare Infant Formula Stage 1 (0–6 months)** in NEW ZEALAND ONLY with **batch numbers 3169 and 3170 (use by 17 06 2016 and 18 06 2016)**. The batch number and use by date can be found on the base of the tin.
- **Karicare Gold+ Follow On Formula Stage 2 (6–12 months)** in NEW ZEALAND ONLY with **batch number D3183 (use by 31 12 2014)**. The batch number and use by date can be found on the base of the tin.

This precautionary recall **ONLY** affects batch numbers 3169 and 3170 of Karicare Infant Formula Stage 1 (0–6 months), sold in New Zealand and batch number D3183 of Karicare Gold+ Follow On Formula Stage 2 (6–12 months), sold in New Zealand.

Nutricia apologises for any inconvenience or stress caused by this, but the safety of our consumers is our paramount concern.

We are doing everything we can to resolve this issue and provide as much information and support as possible.

**The recall DOES NOT include other Karicare products. This issue does not affect any Nutricia products sold in Australia.**
